

1 agreements or relationships with them. As I stated in my previous declaration, these OEM's
2 buy directly from Kaspersky Moscow or, perhaps, from other Kaspersky Moscow authorized
3 distributors. Another kind of OEM is a software developer or hardware manufacturer that
4 wants to integrate the functionality of Kaspersky security software into its own product, such
5 as a "firewall" appliance. To do so, this kind of OEM licenses a software development kit
6 directly from Kaspersky Moscow, which allows the OEM to integrate the functionality (e.g.,
7 anti-virus protection) into the given product. Again, Kaspersky USA does not deal with these
8 OEMs, does not sell software to these OEMs, and has no agreements or other relationships
9 with such OEMs.
